

UTTAM KUMAR

Associate Engineer – Frontend Development

Noida, India | 8540906167 | uttamkrp08@gmail.com | github.com/uttam08er | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, component-based web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Strong JavaScript fundamentals — including scope, closures, promises, and async/await patterns. Practical exposure to Node.js for backend integration and REST API consumption. Backed by a MERN stack internship at Codec Technologies and four independently deployed projects, with a collaborative, detail-oriented approach to writing clean, maintainable UI code.

TECHNICAL SKILLS

Core Frontend: HTML5, CSS3, JavaScript (ES6+) — scope, closures, promises, async/await

Frameworks & UI: React.js, React Hooks (useState, useEffect), Component Lifecycle, Tailwind CSS

Routing & Rendering: React Router, Next.js (routing basics, SSR/SSG rendering concepts)

API Integration: REST API Consumption, Axios / Fetch API, JSON, Error Handling, JWT (client-side)

Backend (Support): Node.js, Express.js, Python (Flask) — foundational backend service exposure

Testing: Jest (unit testing basics), browser DevTools debugging

Tools & Workflow: Git, GitHub, Vercel, npm, VS Code, Postman, Agile / collaborative development

Soft Skills: Attention to Detail, Self-Directed Learning, Problem-Solving, End-to-End Ownership, Team Collaboration

WORK EXPERIENCE

Frontend & MERN Stack Developer Intern — Codec Technologies India

Jul 2025 – Aug 2025

- Developed and maintained React.js UI components for a production MERN stack web application, applying JavaScript fundamentals (closures, async/await, promises) in real, reviewed code.
- Consumed Node.js/Express REST API endpoints from the frontend — handled JSON responses, async error handling, loading states, and user-facing feedback in the UI.

Web Development Intern — Manoj Technologies Pvt. Ltd., Patna

Dec 2022 – Jan 2023

- Built a fully responsive, cross-browser-compatible frontend application using HTML, CSS, and JavaScript, ensuring seamless UX across all device sizes.

PROJECTS

Evanto – Event Booking Platform

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

- Built a full-stack event platform featuring React component-based UI, JWT-authenticated REST API integration, and async data fetching with proper loading and error states.
- Implemented role-based dashboards, event browsing, ticket booking, and reservation management end-to-end.

Shaurya eServices – Cyber-Cafe Management System

React.js, Tailwind CSS, Python (Flask), PostgreSQL, REST APIs, JWT Authentication

- Built a multi-page React frontend with distinct customer and admin dashboards; integrated JWT-authenticated REST API endpoints with proper async error handling and route protection client-side.

Personal Portfolio Website

React.js, Tailwind CSS, HTML5, CSS3, GitHub Pages

- Designed and built a fully responsive, mobile-first portfolio with smooth UI interactions and optimised page load performance, deployed on GitHub Pages.

Factify – AI News Authenticity Analyzer

React.js, Python (Flask), Pandas, REST API

- Developed React frontend for an ML-powered news analysis tool — form handling, async API integration, result visualization, error boundaries, and mobile-responsive layout.

EDUCATION

B.Tech, Computer Science & Engineering — Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal (2023–2026)

Diploma, Computer Science & Engineering — Government Polytechnic, Gaya (2020–2023) CGPA: 8.53 / 10

LANGUAGES

English, Hindi
